

DCB Coach Education 2008: Coach Development Workshops

www.dcbcricket.com

The primary target audience for the new Coach Development Workshops are coaches who have attended the New UKCC 2 or the "old" ECB Level 1 or above. These workshops are designed to act as 'stepping stones' for individuals who wish to work towards attending either the UKCC 3 or the Club Coach Course. Coaches can also access these as CPD (Continual Professional Development). A certificate of attendance will be issued for each workshop attended.

Using drills with keepers

Additional fielding techniques

What makes a good fielding drill?

CDW – Coaching a Team

Pre-match preparation

Role of coach during match

Post match work

Using games in training

Planning club nights

CDW— Practical Solutions to Common Problems 'A Workshop to Support Coaches in the Field'

This has been developed following feedback and discussion with several active coaches in the county who work with cricketers on a regular basis and find themselves needing practical answers to issues they encounter 'day in, day out'.

Whether it be batting, bowling, fielding or wicket-keeping, we all find ourselves looking for ways to help players who have 'slipped' into bad habits or have techniques that don't allow the players to be as successful as they would like to be.

This workshop is designed to address some of these problems. It will also hopefully open up positive discussion on many more. The flexibility of this workshop will allow the Tutors to shape the content to suit your needs.
